You Can Make Money Growing the Wonderful *Fast Growing* Chinese Elm (*Ulmus pumila*)

(Also Called Siberian Elm)

These Kansas Chinese elms are seven years old, 40 feet high, 10 inches caliper. Seedlings here offered from these and similar trees.

U. S. DEPARTMENT OF AGRICULTURE, IN ITS YEARBOOK, 1926, PAGES 215-8 SAYS:

"As a shade, windbreak and avenue tree the Chinese elm has proved to be the most successful introduction of this kind thus far attempted.

"It is a rapid grower, with slender, almost wiry branches. It is one of the first trees to leaf out in the spring and the last to shed its leaves in the fall. Throughout the long season the leaves remain a beautiful green and are remarkably free from the usual plant diseases and insect injuries so common in many of the other elms.

"*It is very hardy and has proved valuable under a greater variety of climatic and soil conditions than any tree yet introduced.*

"Very favorable reports have been received from practically every part of the country. Its resistance to drought, alkali, and extremes of temperature render it an especially valuable tree."

6 to 9 inches.....$12.00 per 1,000 Lots of 5,000 or more.....$10.00 per 1,000

9 to 12 inches.....$16.00 per 1,000

(Spring delivery add 10 per cent to these prices.) Book your order at once.

Thornless Honey Locust Seedlings, 6-inch, per 1,000.....$4.00

Liatris Pycnostachya (Blazing Star), plants, per 1,000 .....$60.00

Lining out size, per 1,000.....$30.00
